Professional Summary

Versatile Software Developer skilled in building responsive web applications and full-stack solutions using JavaScript, Python, Flask, and ASP.NET MVC. Proven ability to deliver performant, maintainable code, debug complex issues, and integrate scalable APIs. Strong foundation in system design, RESTful architecture, agile methodology, and deployment pipelines.

Professional Experience

Frontend Web Developer Intern

Dot Plus Technologies Pvt. Ltd, Bihar

April 2023 – September 2023

- Built interactive UI components using HTML, CSS, and JavaScript, improving cross-browser compatibility by 35%.
- Integrated RESTful APIs with the frontend to enable real-time data interaction, increasing the responsiveness of dashboard modules.
- Automated test plans for front-end flows, reducing manual QA efforts by 40%.
- Collaborated in Agile sprints; maintained Git workflows, reviewed code, and ensured 90%+ sprint completion rate.
- Supported production deployments and reduced page load time by optimizing assets and lazy loading components.

Projects

MindPlay Analysis (NLP Sentiment Classifier)

- Developed a sentiment analysis tool using Flask, VADER, and TF-IDF, achieving 87% classification accuracy.
- Designed an end-to-end NLP pipeline including tokenization, lemmatization, and data cleaning to improve model input quality.
- Connected frontend input with backend Flask API to enable real-time sentiment detection.

Budget Hotels in Delhi (Hotel Booking System)

- Created a full-stack booking system using ASP.NET MVC and MySQL, allowing hotel listing, search, and reservations.
- Implemented secure login, session handling, and role-based dashboard to streamline admin vs. customer functionality.
- Optimized SQL queries and backend logic, improving page load time by 30%.

Star Business Solution Company Website

starbspl.com

- Built a responsive company website using HTML5, CSS3, and Bootstrap, improving mobile user engagement by 45%.
- Applied on-page SEO techniques and schema markup to enhance search engine indexing.
